

TUTELAGE LTD'S SUMMER TRANSITION PROCESS A SUCCESS!

Early September marked the commencement of our annual transition period for all our partner universities. We believe that the transition period is a key aspect in ensuring our students feel well settled and ready to begin their studies at their new University; and thus strive to provide each individual a service catered to their needs.

The transition support we provide is a vital part of our service and being the consultancy with the highest student satisfaction rate highly emphasises the importance of the support we provide.

The end of our transition period was met by happy faces of students and parents alike who were highly satisfied with the support we provided; and assured that this would continue for their entire education and beyond. If you know a friend or relative wanting to apply for 2017 entry at any of our partner universities, they can contact us today on 020 3617 1785 or email info@tutelage.org.uk
